

Documenting Therapies (P1b)

Definition: Therapies that occurred **after** admission to the facility, and were performed by a **qualified** therapist or in some instances, under such a person's **direct supervision**. Therapies can be provided either inside or outside of the facility. A physician's referral is necessary if required by the facility or jurisdiction.

Qualified therapist: A qualified therapist meets provincial/territorial credentialing requirements for their respective profession and is responsible for assessing the resident and developing the rehabilitation goals and treatment plan. The therapist is also responsible for evaluating and modifying the program or discharging the resident from the discipline-specific program.

Direct supervision: A qualified therapist may assign the delivery of the program to a therapy assistant or therapy aide. The therapist must be available to the assistant/aide for consultation or assistance with the resident's treatment, in accordance with standards of practice defined by the professional college.
