Introduction

Le tableau suivant énumère les attributs et les mesures (numérateurs, dénominateurs et indicateurs) disponibles pour la création de rapports dans le projet de la Base de données canadienne SIG (BDCS) du Portail de l'ICIS. Il peut servir à planifier les rapports, de même qu'à approfondir vos connaissances sur chaque objet et ses données sous-jacentes.

Chaque dossier présente les attributs et les mesures en ordre alphabétique; il est possible que l'ordre soit différent dans l'outil.
