P.E.I.	Prince Edward Island
RD	renal dialysis (clinic)
Sask.	Saskatchewan
Y.T.	Yukon

Purpose

This report, *Data Quality Documentation, National Ambulatory Care Reporting System — Current-Year Information*, is produced on a yearly basis and provides information on the quality of the data file for the relevant fiscal year. An associated report, *Data Quality Documentation, National Ambulatory Care Reporting System — Multi-Year Information*, provides background information on the reporting system to help users decide whether the information fits their needs. The *Data Quality Documentation, National Ambulatory Care Reporting System — Glossary of Terms* is also available.

Information on how to complete the National Ambulatory Care Reporting System (NACRS) abstract, including detailed data element descriptions and collection instructions, can be found in the *National Ambulatory Care Reporting System Abstracting Manual*. For a summary of the mandatory and optional NACRS data elements by ambulatory care group, please refer to the [NACRS Data Elements](#) document on CIHI's website.

Coverage

NACRS contains data about hospital- and community-based emergency and ambulatory care visits, including visits to day surgery (DS) and outpatient clinics. Data is collected from all submitting facilities in Canada on the care of patients who were registered in these facilities between April 1 and March 31 of the given fiscal year.

- In 2014–2015, a total of 21,031,102 abstracts were submitted to NACRS (see Table 2 in Appendix A); 20,093,192 abstracts were submitted in 2013–2014. This represents an increase of 4.7%, which is partially due to an increase in coverage, including 1 Prince Edward Island facility (day surgery data) and 1 Saskatchewan facility (Level 1 emergency department [ED] data). For further information on submission levels, please see the report *Data Quality Documentation, National Ambulatory Care Reporting System — Multi-Year Information*.
- Submission of DS data to NACRS is mandated in Prince Edward Island, Nova Scotia, Ontario and Alberta. All other provinces/territories submit their DS data to the Discharge Abstract Database (DAD) or to the Hospital Morbidity Database (HMDB). Information about the DAD and the HMDB can be found in *Data Quality Documentation, Discharge Abstract Database* and *Data Quality Documentation, Hospital Morbidity Database*, respectively.
- There was 100% Level 3 ED coverage for Ontario and Alberta. Yukon and Prince Edward Island submitted Level 3 ED data, B.C. submitted Level 2 ED data, Saskatchewan submitted Level 1 and Level 2 ED data, and Nova Scotia and Manitoba submitted Level 1 and Level 3 ED data in 2014–2015. Fully coded diagnosis and intervention information might not be available for abstracts submitted at Level 1 or Level 2 by these provinces.
- 2 ED facilities from Yukon were identified for reporting to NACRS but did not submit any data to CIHI. 1 of these Yukon facilities has been missing submissions to NACRS since 2011–2012.
- Throughout the fiscal year, facilities may open, close or merge, resulting in changes to the number of reporting facilities.

- The rate of over-coverage from true duplicate abstracts in 2014–2015 was 0.75%. There were 156,148 true duplicate abstracts (see Table 5 in Appendix A).
- There were no sources of under-coverage at the facility level in 2014–2015.
- In 2014–2015, 47.09% of the data was from Ontario and 40.96% was from Alberta.

Non-response

Unit non-response refers to incomplete data that is submitted from facilities in the frame, whether at the facility or record level. Additional unit non-response may occur with any outstanding rejected records that are not resubmitted during the data collection period.

- The unit non-response rate at the facility level was 0.59% for ED, since 2 Yukon facilities did not submit all periods of 2014–2015 data.
- The unit non-response rates at the record level were estimated at 0.095% for ED, 0.024% for DS and 0.003% for all other levels of care. These rates were the result of 6 facilities not submitting data for some periods in 2014–2015 (4 Ontario facilities), 2 facilities not submitting all periods of 2014–2015 data (2 Yukon facilities) and 1,337 outstanding rejected records.
- Please refer to Table 4 for the item non-response rates for selected NACRS data elements.

Appendix A: NACRS data tables

The NACRS 2014–2015 population of reference included 424 facilities in Canada.

Table 1: Number of facilities submitting to each ambulatory care group in NACRS, by province/territory, 2014–2015

Prov./terr.	Total no. of submitting facilities	ED			DS	Clinic					DI	Other ambulatory care
		Level 1	Level 2	Level 3		CC	RD	OC	MH	Other		
P.E.I.	2	0	0	1	2	0	0	0	0	0	0	1
N.S.	20	4	0	5	19	1	0	2	0	13	8	7

Alta.	169	0	0	108	94	4	4	7	31	107	120	120
B.C.	29	0	29	0	0	0	0	0	0	0	0	0
Y.T.	1	0	0	1	0	0	0	0	0	0	0	0
Total	424	15	31	293	265	28	58	94	32	201	142	136

Notes

For a listing of how the ambulatory care groups are defined using the national Management Information System Functional Centre (MIS FC) account codes, please refer to Appendix D of the *NACRS Manual*.

The Clinic — Other category includes the following clinic subcategories: medical, surgical, cardiac, gynecology, neurology, obstetrics, pediatric, rehabilitation, rheumatology, ophthalmology, orthopedic, family practice and special day/night care, among others.

B.C.'s data submission level is based on the reporting mandate.

Table 3: Percentage change in volume of NACRS abstracts between 2013–2014 and 2014–2015, by province/territory and ambulatory care type

Prov./ terr.	ED			DS	Clinic					DI	Other ambulatory care	Total
	Level 1	Level 2	Level 3		CC	RD	OC	MH	Other			
P.E.I.	—	—	-1.41	N/A	—	—	—	—	—	—	N/A	47.8
N.S.	-0.67	—	25.5	0.4	-3.7	—	6.8	—	-16.6	193.9	40.7	5.1
Ont.	—	—	2.9	1.6	2.9	1.5	0.8	-9.4	103.5	9.1	9.1	2.9
Man.	3.58	—	-3.0	—	—	—	—	—	—	—	—	2.7
Sask.	27.3	7.4	—	—	—	—	—	—	—	—	—	18.6
Alta.	—	—	1.3	7.3	1.2	2.9	10.6	23.9	3.6	2.7	5.2	4.4
B.C.	-100	N/A	—	—	—	—	—	—	—	—	—	17.21
Y.T.	—	—	5.5	—	—	—	—	—	—	—	—	5.5
Total	-67.2	31,620.7*	2.6	3.4	2.4	1.8	0.9	23.9	5.7	3.2	5.2	4.7

Notes

* The large percentage change is because of the shift in reporting method to reflect mandate of all 29 facilities in B.C. to submit Level 2 ED data.

For a listing of how the ambulatory care groups are defined using the national Management Information System Functional Centre (MIS FC) account codes, please refer to Appendix D of the *NACRS Manual*.

The Clinic — Other category includes the following clinic subcategories: medical, surgical, cardiac, gynecology, neurology, obstetrics, pediatric, rehabilitation, rheumatology, ophthalmology, orthopedic, family practice and special day/night care, among others.

Table 5: NACRS duplicates

Fiscal year		2013–2014 N (%)	2014–2015 N (%)
ED	Level 1	664 (0.55)	787 (0.50)
	Level 2	0 (0.00)	0 (0.00)
	Level 3	28 (0.02)	23 (0.01)
DS		1,027 (0.86)	987 (0.63)
Clinic	CC	2 (0.00)	2 (0.00)
	RD	3,510 (2.93)	3,153 (2.02)
	OC	15 (0.01)	21 (0.01)
	MH	81,807 (68.36)	121,333 (77.7)
	Other	25,851 (21.6)	23,016 (14.74)
DI		84 (0.07)	397 (0.25)
Other ambulatory care		6,676 (5.58)	6,429 (4.12)
Total		119,664	156,148
Proportion of NACRS		~0.60%	~0.74%

Note

The majority of the duplicates were from Alberta in both 2013–2014 (99.4%) and 2014–2015 (99.5%).

For unscheduled ED visits for the same individual from the same facility, visits were found to overlap with their previous visits (after the exclusion of above duplicates). These overlapping visits (0.09% of all unscheduled ED visits) may represent duplicate abstracts submitted to NACRS.
