

Accessing Indicator Results on Your Health System: In Depth

Your Health System (YHS): In Depth provides decision-makers in health regions and facilities with comprehensive information on important health indicators that can be used to examine and assess your health system at the provincial/territorial, regional, hospital and long-term care organization levels. It presents comparative indicator results to facilitate the sharing of best practices and to help generate new ideas for improvement strategies.

Follow the steps below to obtain results for indicators in the [YHS: In Depth web tool](#).

Step 1: Get an overview of all results or find out what's been updated.

- Click **Export** in the page header to download results for all indicators in YHS: In Depth.
- Find the list of indicators that were most recently updated with the latest year of data by selecting **What's New** in the page header.
